[linkedin.com/in/aleeza-ejaz-37339a353](https://www.linkedin.com/in/aleeza-ejaz-37339a353)

Education

New York Institute of Technology (NYIT) | 3.81 GPA

New York, NY

Bachelor of Science, Interdisciplinary Studies: Information Technology & Digital Art

May 2028

Relevant Coursework: Web Design, Linear Algebra, Data Structures, Operating Systems, Digital Tools II

Experience

**Entrepreneurship and Technology Innovation Center (ETIC)
Multimedia Development Intern**

New York, NY

May 2025 - Present

- Produced instructional product videos documenting the assembly and demonstration of patented prototypes developed by ETIC, serving as comprehensive guides for internal and external stakeholders.
- Support data analysis and visualization efforts for New York Tech's ongoing research collaboration with NYSERDA (New York State Energy Research and Development Authority).

**New York Institute of Technology (NYIT)
Academic Technology Services Student Aide**

New York, NY

May 2025 - Present

- Designed and developed educational modules and interactive web elements
- Collaborated with instructional designers, faculty, and student teams to execute concepts from wireframe to final product
- Developed responsive UI components for course content

**CommuterLink
Data Consultant**

Merrick, NY

January 2025 - May 2025

- Served as a pro bono consultant via Consultants for the Public Good to enhance commuter student satisfaction and accessibility
- Created a Canvas course to centralize commuter resources, including transit schedules, safety apps, and travel subsidies

Projects

AI-Assisted Data Visualization Pipeline

March 2026 - May 2026

Directed the development of a tool that categorizes unstructured datasets into a standardized 22-column schema, driving the build through a locally-run Mistral AI model via Ollama

- Ran iterative testing and feedback cycles, diagnosing schema gaps and refining output until reliable
- Delivered an automated pipeline generating a formatted Excel workbook and interactive HTML dashboard with customizable visualizations

NYIT Amplify Commuter Resources Project

February 2025 - October 2025

Worked alongside CommuterLink and NYIT's Academic Technology Services team to create an educational Canvas course for the university, presenting all available commuting and advising aid resources to students and staff.

- Created responsive modules with intuitive, user-friendly interfaces using HTML, CSS, and Genially for GUI design.

Skills

Design & Visual Tools: Procreate, Adobe Illustrator, Adobe Photoshop, After Effects, Canva
